**Non-Responsive**

All,

Please note the edit in red below regarding the legal question with regard to Oregon's approach for meeting the OSDS condition. Thanks.

Don

**Subject:** RE: CZARA FOIA and decision timeline

Hi Jennifer--

Following up on my email below, would the morning of May 7 work for you and agency staff?

P

**Subject:** CZARA FOIA and decision timeline

Hi Jennifer—

Thank you very much for your work on the CZARA FOIA and for the status update you provided me last week. I've had a chance to talk with Nina Bell at Northwest Environmental Advocates and she would like to work with you and EPA to establish a deadline by which EPA will provide all responsive records and an index of withheld records. I know you mentioned that EPA isn't ready to commit to a deadline, but given the delay to date Nina would like to get a workable date on the calendar so she knows when she can expect completion of the FOIA response.

Also, during our call you mentioned that EPA and NOAA are probably going to ask NWEA for an extension of the deadline for making a final decision on Oregon's coastal nonpoint pollution control program. You suggested a meeting

in early May, when Nina will already be in Seattle, to see if the parties to the settlement agreement can work out an agreed extension. Which days in early May work for you and agency staff? Also, should I contact someone at NOAA to bring them into the discussion, or can you do that?

As to the content of that meeting, Nina would like to hear the agencies' extension proposal and then discuss how to phase the FOIA and final CZARA decision work going forward, so it's workable. She would like to resolve any decision deadline issues before (not after) the court-ordered deadline of May 15 because she's very interested in avoiding a repeat of what happened late last year, when EPA and NOAA missed the court-ordered deadline for proposing the final decision. Finally, she asked me to let you know that while she is open to extending the final decision deadline she is not really open to doing that in a way that continues full CWA and CZMA grant funding to Oregon after May 15. As you may be aware, paragraph two of the settlement agreement states: "After May 15, 2014, EPA and NOAA shall not award full CWA Section 319 or CZMA Section 306 grant funds to Oregon based on any conditional approval of Oregon's CNPCP." I'm mentioning this to you now because I want to give you a heads up that in any discussion about an extension NWEA will want to be clear about what's being extended.

Thank you again for reaching out and letting us know where things stand. I really appreciate that and will look forward to our meeting and to sorting this stuff out. Feel free to call me if it would be easier to discuss this or scheduling more by telephone.

P

Cheers,

Jayne
